

POWER ENERGY  
**AWARDS**

## Power & Energy Awards

The Power & Energy Awards represent the regional benchmark for excellence, celebrating success and recognising the people and businesses pushing boundaries and driving the South East Asian power and electricity sector forward.

The Awards distinguish those planning and implementing projects that significantly improve business practices across the key themes of Enlit; power generation, T&D, the smart grid, renewable energy and the energy revolution, innovation and individual contribution. The Awards will be presented as part of the Awards Dinner held on the opening night of the event, 20 September 2022, and present an excellent opportunity to network and celebrate our wonderful industry!

### The Award Categories & Criteria

1. **Innovation** – this is all encompassing and will acknowledge innovation across the sector in technology, digital, financing mechanisms and more, it is also open to the start-ups and disruptors shaking the sector's status quo
2. **Transmission & Distribution Networks** – submissions may include project advances and technology developments driving ASEAN's network infrastructure and could extend to power trading agreements, furthering the APG dream
3. **Power Plant of the Year** – open any plant that has set itself apart from contemporaries through successful project completion, engineering upgrades, new or novel technology implementation or the application of environmental control technologies
4. **Renewable Energy & Sustainability** – any renewable energy project that has been completed or reached a significant milestone, utilised RECs to drive RE adoption in the region, or a project that has successfully implemented reliable and sustainable power solutions utilising distributed energy technology and/or energy storage
5. **Energy Storage** – celebrates ground-breaking energy storage products and solutions, conventional battery technology or hydrogen etc., or is open to any project that has successfully implemented energy storage solutions that support the continued transition to a cleaner ASEAN power system
6. **Low Carbon Transport** – submissions may include any significant contribution to the development of efficient, cost effective low carbon mobility solutions, or projects that have supported the development or growth of any form of low carbon transportation across the region
7. **Smart Grid** – outstanding smart grid projects across the region, regardless of scale, which showcase the implementation or highlights the specific advantages of new data-rich technologies for utilities and customers
8. **Energy Advocate of the Year** – open to nominations of individuals or organisations who have supported the continued development of the ASEAN power sector, the adoption of green energy solutions or the implementation of technologies or projects that have ensured affordable, reliable and modern energy services for communities in the ASEAN region
9. **Female Executive of the Year** – open to nominations of individuals who have made substantial contributions to the region's power sector in 2021-2022
10. **Male Executive of the Year** – open to nominations of individuals who have made substantial contributions to the region's power sector in 2021-2022

Aside from bragging rights, award winners will be welcomed to the stage during the awards dinner, in front of a packed room of industry leaders from across the region. Winners will receive significant exposure for your business in the build-up to (as a nominee) and during Enlit Asia, SETA & SSA, including interviews and inclusion in our event marketing collateral, combined with your own marketing initiatives.

We encourage lots of nominations from the market. This can be from vendors, utilities, IPPs, C&I customers or indeed any group that has developed successful technology and business innovations. Nominations are open to the public and we welcome multiple submissions across the categories. There is no restriction against nominating your own company, project or executive and you can nominate a project across a number of categories.

### **Eligibility**

- Any initiative, project or plant that:
  - Has been completed, achieved a significant milestone or undergone overhaul or upgrade in 2021-2022
  - Is based in the ASEAN region (we make an exception for start-ups, so long as their product can be shown to be applicable to the regional market, ideally with an in-region case study)
- For the Executive of the Year, these people must run a business whose primary focus is within ASEAN, though they do not have to sit in the region themselves
- Winners must have a senior executive available to attend the Enlit Asia 2022 awards dinner on 20 September in Bangkok

### **How to Nominate?**

Please complete 1 nomination application for each category you are entering. If you wish to nominate for multiple categories, you must send in separate nominations for each. Email it with the subject line **AWARD NOMINATION** to [infoasia@clarionevents.com](mailto:infoasia@clarionevents.com).

The Award criteria are deliberately broad to capture a wide variety of projects. Interpret them as you see fit with a focus on projects that are best of breed by virtue of their value to the stakeholders and industry. There are normally many partners involved in energy projects so list those who are relevant to your selected project.

For each nomination, please include:

- **Company name**
- **Contact details** of main point of contact
- **The category** for which you are submitting the nomination (one only)
- **Business/Plant/Project/Executive name**
- **500 word write-up** to include for example:
  - What was the purpose of the project?
  - What was achieved?
  - How does this set it apart from its competitors?
  - Who is the utility, IPP or the customer?
  - What vendors if any are involved with this project?
  - You are welcome to include pictures or URL links for more details

Submissions must be received by **July 1<sup>st</sup> 2022**.

## Judging Process

The process is 100% independent, impartial and conducted with total transparency. The decisions made by our judging panel are final. The judges can withhold awards in categories where a lack of activity as meant there were no eligible nominations. The judges will consider each nomination on its own merit and from the longlist of publically nominated entries finalise a shortlist of 3-4 per category. This shortlist will then be voted on to determine the winners and runners-up.

### The Judges will consider factors such as (but not limited to):

- What milestones have been achieved?
- What challenges were overcome?
- What solutions were implemented and how have these contributed to the company's business?
- How have new technologies adopted improved financial performance and provided significant ROI?
- What new or cutting-edge technology has been used, or how has existing technology been implemented in a novel way?
- What are the criteria for project success, did the project/product/service meet its objectives and targets
- What is the longevity of the project, is it future-proof and in line with the broader ASEAN energy strategy?

### For the Executive of the year awards

- The company performance vs contemporaries
- Ensuring growth and shareholder ROI
- Overseeing change management, and/or, turnaround success
- Cementing their market reputation as a company leader and as a thought leader
- Embracing innovation

### Interested in Attending?

The Awards Dinner is an exclusive event open to the Summit delegates, speakers, sponsors and VIPs, as well as Enlit Asia, SETA and SSA exhibitors. It provides an unrivalled opportunity to network with senior industry colleagues in a formal, yet relaxed and intimate setting and is a great way to celebrate our industry. Spaces are limited.

---

#### Buy a ticket:

Open only to Summit delegates and exhibitors

---

**USD 500 / ticket**

---

#### Host a Table:

As a table host, you can fill a table of 8 with your own team and guests (not necessarily Summit Attendees) or extend invitations to those already confirmed to attend.

\*Table tent card, logo on printed table plan signage\*

---

Tier One	<b>USD 6,500 / table</b>
Tier Two	<b>USD 5,500 / table</b>
Tier Three	<b>USD 4,500 / table</b>

---

Remark: All above price is exclusive of VAT.
